

Warranty

Alea warrants products to be free from defects in design, materials and workmanship for a period of 10 (ten) years* in normal use from the date of delivery.

Goods that have been reconditioned or altered in any way or which are subject to use in unsuitable or abnormal conditions are not covered under the above warranties.

Except as stated above, all conditions, warranties and representations, whether expressed or implied, statutory or otherwise in relation to the goods are excluded.

Repair or replacement of any defect covered by Alea warranty will be made at no charge to the original purchaser during the warranty period.

Alea takes great care in the selection of materials for all its products, but does not have control over the natural variations that occur in wood.

The company warranty does not therefore extend to matching colour and grain of those materials beyond normal commercial tolerances.

All types of coloured material when exposed to ultraviolet light (such as sunlight) may be subject to fading.

All Alea swatches are representative samples taken from actual materials used for production purposes. They are therefore within commercial tolerances but should not be regarded as colour standards.
